**Subject:** Highland Water District 2006 Comprehensive Plan

FYI: On Friday I received a letter from the Highland Water District requesting approval of its 2006 Comprehensive Plan. Attached is the draft schedule. I sent you a copy of this schedule and the Plan via interoffice mail.

Sheila McCallister

**Subject:** RE: Highland Water District 2006 Comprehensive Plan

I just finished looking at the earlier Draft update of their CIP and portion of the 2006 Comp. Plan, so will compare that to what you send down.

I presume this 2006 Comprehensive Plan update was also done by Roth Hill and Associates.

I will try and get out in the field in the next couple of weeks to see how the Water Tank No. 2 construction is going on in this District. A little over \$7Million in water improvements are planned in the near future in the Highland Water District.

That tank is key to the growth in the northern reaches of the District and serves as an emergency feeder to Sultan's supply once it is done until Sultan is able to construct their new Tank at the North end of town in the newly annexed area.

*Roth Hill*
