Subject: Comments on Draft Supplemental EIS for Mineral Comprehensive Plan

TIMED COMMENT

To: Tom Niemann

Dear Mr. Niemann:

Thank you for the opportunity to comment on the Draft Supplemental EIS for the Mineral Comprehensive Plan.

My sole comment is that it is impossible to properly evaluate the alternatives presented in the DSEIS without an analysis of traffic impacts.

I urge that the DSEIS be withdrawn and reissued only after traffic impacts are analyzed, or, alternatively, that the DSEIS be supplemented with an analysis of traffic impacts and reissued for public comment prior to the preparation of the final SEIS.

Sincerely,
Kathryn McDonald
