

**Letter to the Editor** (Submitted to G.R.I.T.)

1/30/08

Dear Editor,

My name is Paige Copple. I am a student in the community of Sultan and am writing this letter in regards to the upcoming levy for our library. Our library is the center of our community uniting people young and old. The library serves not only as a source of entertainment with programs for people of all ages but also as a vital source of internet access for many students like myself.

I have lived in Sultan all of my life and can personally attest that the library is an asset to the community, greatly utilized by a multitude of people. I speak for many people when I say the library will be a prodigious loss to our city if the citizens do not take action and vote yes for the library. I give my full support to the library levy and encourage all residents of the area to assist in the effort to save our library.

Sincerely,  
Paige Copple
