JIM FLOWER'S CANDIDATE STATEMENT

"This election comes at a time when the City of Sultan finds itself at important crossroads. The years ahead will present many tough choices for the council and many challenges."

"These challenges must be met by a council that is determined and prepared to work together towards solutions. This last year is an example of a council divided by politics with much council time and taxpayers' money spent, only to prove that the voting majority wanted our form of government to remain the same."

"It is time to choose a council member who has vision and foresight to take the City of Sultan through these crossroads and into a stable future, we need a candidate with business experience, a strong work ethic and a knowledge of financial responsibility."

"We, the people of Sultan, deserve a representative on Sultan City Council who has a vested interest in Sultan, a person who is more interested in meeting and dealing with the challenges of running the City rather than challenging other council members in petty disputes."

Thank you,

Jim Flower
