21

Kim,

I met with Connie and Craig this morning regarding the additional information we need to complete our review and approval of the mitigation, landscape and park plan for Willow Run. Based on that meeting the following will be required:

1. Mitigation plan approved and signed by David Lutz/Tulalip Tribes. The plan should be on Mylar so it can become a permanent record.
 2. Detailed landscape plan with all materials identified and their sizes, quantities and locations shown on the plan.
 3. Detailed Park plan with all improvements shown, identified and dimensioned, etc.
- Hope this helps.

Rick
